 - **Frameworks & Libraries:** Bootstrap
 - **Software & Tools:** MATLAB , Visual Studio Code , Github
-

PROJECT EXPERIENCE

Spotify Clone

- Developed a Spotify-like music streaming application with a user-friendly interface.
- Implemented dynamic playlists, search functionality, and music player controls.
- Integrated backend services using Node.js and Express.js for data handling.
- Utilized MongoDB for storing user playlists and song data.

WanderLust - Hotel Listing Website

- Designed and developed a hotel and apartment listing platform with rating functionality.
- Implemented backend logic with Node.js and Express.js for efficient data management.
- Used MongoDB as the database to store user reviews and hotel details.
- Built a responsive UI using Bootstrap for seamless navigation.
